

**Tommaso Albinoni (1671–1751): 12 Sonatas, Vol. III (Sonatas 9–12)**  
**for 2 alto recorders, tenor recorder, bass recorder ad lib. and basso continuo**  
**Girolamo Musikverlag G 12.050**

# Audit Report

The 12 Sonatas survive in three manuscript sources:

- A** A part set in the music collection of the Count of Schönborn-Wiesentheid with the signature 406. The four part books are marked *Flauto P:<sup>mo</sup>*, *Flauto Sec<sup>do</sup>*, *Flauto Terzo* and *Basso*, respectively, on the first page. The *Flauto Primo* part book is annotated *Dal Sig': Tomaso Albinoni*. The 12 works are each headed *Sonata*, individual movements are numbered consecutively from 1 to 48.
- B** A part set in the music collection of the Vienna Austrian National Library, bearing the signature *E.M. 94.a*. The title pages of the four parts each contain the reference *Albinoni*; the parts are designated *Violino Primo*, *Violino secondo*, *Violetta* and *Basso Continuuo* [sic]. The movements are numbered consecutively from 1 to 48 without any further subdivision.
- C** A violin I part sheet (without part designation) bearing the signature *Ms. It. 63*, held in the Music Library at the University of California, Berkeley. The title page is inscribed *1728 | Baletti del Corelli*. As in the source **A**, the movements are divided into 12 sonatas, but not consecutively numbered.

Manuscripts **A** and **B** are probably based on a common source. For the present edition, the manuscript **A** was used as main source. Corrections in the recorder parts and octave transpositions were made on the basis of source **B**. Octave transpositions made by the writer of source **A** in comparison with source **B** are not mentioned, except they were undone due to technical reasons of the setting. Pitch indications in the sources **B** and **C** are cited in the present edition transposed to the key of the source **A**. The figured bass was taken from **B** and occasionally adjusted with regard to octave position to the *Basso* part in **A**. The trill marks in the first recorder part are only contained in the manuscript **C**. Dynamic markings added by the editor are given in brackets. Fermatas on the final chords are taken from source **A**. Further fermatas appearing only in **B** were deleted. The headings of the movements are given in modern spelling. The realization of the thoroughbass was added by the editor; the figuring in source **B** was adjusted to the key of the recorder version.

Fl = recorder, B = basso, Bc = basso continuo

## **Sonata nona**

Die Quelle **A** steht eine große Sekunde höher als **B** und **C**.
